A. LUBARSKY, General Manager
We take pleasure in showing herewith a view of the front elevation of our new building, now in course of construction, erected in order to provide for our constantly increasing business. This structure will be 280 feet long, 80 feet wide, and will consist of three stories and basement, constructed throughout of re-inforced concrete.

It is a source of no little gratification to us to consider that this, our contribution to the growth of Greater Baltimore, is brought about by the appreciation on the part of the public of our organization and equipment, the best possible endorsement that we could ask of a policy of progressiveness.
