## PREFACE

The great war overshadows all other subjects in the minds of men, and must of necessity be strongly reflected even in a publication like the American Jewish Year Book, as will appear not only from the article on the collection of Jewish war statistics, but throughout the events of the year. An accurate estimate of the Jewish population of the United States is at present peculiarly important, for otherwise it is impossible to obtain an idea of the proportionate contribution of American Jews to the war. To consider intelligently questions of this nature it is essential to possess a detailed knowledge of the Jewish population of each state as well as that of each American city or town of any considerable size. In the article dealing with the Jewish population of the United States will be found a mass of figures showing, in tabular form, how this population of the country is distributed. The methods used and the general results secured are briefly outlined, and much enlightening statistical data concerning the Jewish population of various classes of American cities are exhibited, together with an exhaustive and novel treatment of the subject of the Jewish population in New York City, which contains nearly one-half of the Jews of the United States. The Editor desires to acknowledge the great debt owing to Dr. Alexander Dushkin for his ingenious calculations. It may be of interest to mention that, according to the best estimates, the Jewish population of the United States amounts to over 3,300,000, while New York City alone has almost 1,500,000 Jewish inhabitants.

The thorough manner in which the Bureau of Jewish Statistics and Research of the American Jewish Committee is laboring to secure detailed statistics relating to all Jews in the military and naval service of the nation is outlined by Mr. Julian Leavitt, who is in immediate charge of the practical division of that work. As will be readily comprehended, it is as yet impossible to present any definite statistics; but from the perusal of this sketch some idea may be gained of the painstaking thoroughness with which the work is being prosecuted, the excellent results that have so far been reached, and the expectations that may reasonably be entertained. In this connection the reader may also be referred

to the list of Promotions, Honors, and Elections, in the "Events" of the United States, which contains the names of some fifteen hundred Jewish commissioned officers.

The Jewish Welfare Board is doing excellent work among the Jewish soldiers and sailors in the service of the United States, and has already gained recognition from all quarters. Mr. Chester Jacob Teller, the Executive Director of this Board, has given a lucid analysis of the aims and achievements of the Board.

In addition, this volume contains an admirable survey of the inner life of the Jews of Serbia from the pen of Dr. I. Alcalay, chief rabbi of Serbia, and a brief but illuminating account of the formation of the New York City Federation for the Support of Jewish Philanthropic Societies, written by I. Edwin Goldwasser. As this is the twentieth volume of the American Jewish Year Book, it was deemed advisable to print an Index to the articles hitherto published in the Year Books. This Index was compiled by Miss Minnie Baum, to whom the Editor wishes to express his thanks.

The Year Book for 5668 contained a Directory of Jewish Local Organizations in the United States. During the past eleven years the number of such organizations has been greatly augmented, and many changes have taken place in those which existed in 1907. It was therefore thought advisable to revise this Directory and bring it up to date for the present volume. But owing largely to war conditions so many unforeseen obstacles have presented themselves, that it was finally decided to defer the publication of this Directory to another season. This will explain the absence of the usual list of new local organizations.

In conclusion the Editor desires to express his sincere thanks to the many persons who have rendered important assistance to him in his labor of preparing this volume, especially to Mr. Harry Schneiderman, Assistant Secretary of the American Jewish Committee, Miss Rose A. Herzog, and Miss Ada Aneckstein; to Dr. B. Halper, Editor, and Mr. I. George Dobseva, Secretary, of the Jewish Publication Society of America. The guidance and criticism of Dr. Cyrus Adler have been particularly helpful in enabling the Editor to solve the numerous difficult problems that have arisen during the last twelve months.

AUGUST 9, 1918.

SAMSON D. OPPENHEIM.

## 5679

is called 679 (תרע"ט) according to the short system (לפ"ק). It is a defective Leap Year of 13 months, 55 Sabbaths, 383 days, beginning on Saturday, the seventh day of the week, and having the first day of Passover on Tuesday, the third day of the week; therefore its sign is וזחג, i. e., ז for seventh, ח for defective (חסרה) and ג for third. It is the seventeenth year of the 299th lunar cycle of 19 years, and the twenty-third year of the 203rd solar cycle of 28 years, since Creation.

1918, Sept. 7—Oct. 6]

## JEWISH CALENDAR FOR ONE HUNDRED YEARS

5585 (1824)–5684 (1924)

The Jewish Year consists of 12 months, each month having 29 or 30 days. An intercalated year has 13 months, an additional month, called Adar Sheni (second Adar), being added between Adar and Nisan. Nisan, Sivan, Ab, Tishri, Shebat, and the first Adar (in an intercalated year) always have 30 days; Iyar, Tammuz, Elul, Tebet, Adar (in a simple year, or Adar Sheni in an intercalated year) always have 29 days each. Heshvan and Kislev sometimes both have 30 days, when the year is called “perfect” (Shelemah, indicated by letter ש), sometimes both have 29 days each, when the year is called “defective” (Haserah, indicated by letter ח), and sometimes Heshvan has 29 days and Kislev 30 days, when the year is called “regular” (Kesidrah, indicated by the letter כ). Whenever the month has 30 days, the 30th day of the month is the first New Moon day of the following month, which has two New Moon days. When the month has only 29 days the following month has only one New Moon day. In order to simplify the following tables, only one New Moon day is indicated, the one which is the first of the month. Thus when there are two New Moon days, the second alone is given.

The Hebrew letters at the top of each column indicate the sign of the year. The first letter indicates the day of the week when the first day of New Year is celebrated; the second letter indicates whether the year is “perfect,” “defective,” or “regular”; and the third letter indicates the day of the week on which the first day of Passover is celebrated.
